PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of experience delivering Angular and Ionic applications for real-time monitoring, logistics, and operational analytics. Skilled in TypeScript, RxJS, REST API integration, reusable UI components, and responsive dashboards. Open to international remote roles.

TECHNICAL SKILLS

FRONTEND	Angular (14-20), TypeScript, JavaScript, HTML5, CSS3, SCSS, Ionic, Bootstrap
ENGINEERING	RxJS, REST APIs, Responsive Design, Component Architecture, Charts, Performance Optimization
TOOLS	Git, GitHub, Angular CLI, Chart.js, Agile, Debugging

PROFESSIONAL EXPERIENCE

Frontend Developer | Fuinco

AUG 2023 - PRESENT • Cairo, Egypt

- Deliver production Angular and Ionic interfaces for GPS tracking, fleet management, and operational monitoring platforms.
- Build responsive dashboards, live status views, trip reports, sensor monitoring, and data visualizations using REST APIs.
- Implement geofencing and overspeed alert interfaces; improve code maintainability and collaborate with backend teams.

SELECTED PROJECTS

SCOUTIFAI | Sports Management Platform

Developed role-based sports operations interfaces for player and team management, training workflows, wellness tracking, and performance analytics.

STACK Angular 19, TypeScript, RxJS, SCSS, i18n

NovaDash | Personal SaaS Admin Template

Built a reusable administration dashboard with analytics charts, responsive layouts, user management, customizable themes, and data tables.

STACK Angular 19, TypeScript, SCSS, Chart.js

Sareb Platinum Tracking System | Fleet Tracking

Developed live vehicle tracking dashboards, fuel and generator monitoring views, trip history, and fleet reporting interfaces.

STACK Angular, Ionic, TypeScript, REST APIs

Food & Drugs Logistics Tracking | Logistics & Safety Monitoring

Built shipment and vehicle status dashboards with geofence/overspeed notifications, safety sensor readings, and transport analytics reports.

STACK Angular, Ionic, TypeScript, REST APIs

Saudi Taxi Platform | Transportation Operations

Created driver and vehicle administration, booking-related interfaces, trip history views, and operational reporting for a taxi platform.

STACK Angular, Ionic, TypeScript, REST APIs

SKAI Environmental Intelligence | Environmental Analytics

Developed monitoring dashboards for environmental sensors, tank levels, flow meter readings, water usage, and analytical reports.

STACK Angular, Ionic, TypeScript, REST APIs

ADDITIONAL PERSONAL WORK Angular 20 Portfolio - responsive case studies, accessible themes, GitHub Pages deployment.

EDUCATION & TRAINING

B.Sc. Computer Science | Shorouk Academy — 2019 - 2022

Data Science & Artificial Intelligence Diploma | AMIT — JUL 2026

Flutter Diploma | Route Academy — 2022
